Research Papers

Disaggregation of daily rainfall by conditional simulation from a point-process model
C.A. Glasbey, G. Cooper and M.B. McGechan 1
Method for interpreting tracer experiments in radial flow using modified analytical solutions
H.Q. Wang and N. Crampon 11
Near-surface and deep groundwaters
K.-P. Seiler and W. Lindner 33
Hydrochemistry of the saline groundwaters of the lower Mersey Basin Permo-Triassic sandstone aquifer, UK
J.H. Tellam 45
Estimating aquifer transmissivities — on the value of auxiliary data
H. Kupfersberger and G. Blöschl 85
Comparison of analytical and numerical results for constant flux infiltration
K.K. Watson, V.A. Sardana and G.C. Sander 101
Ground water behaviour in karst: example of the Ombla Spring (Croatia)
O. Bonacci 113
Use of multiple-time-step information in rainfall–runoff modelling
I. Nalbantis 135
Simulation of groundwater interception at Lake Ranfurly, Victoria, incorporating variable density flow and solute transport
K.A. Narayan and D. Armstrong 161
Systematic hydrogeological study of a hypothermal spring (S. Cesarea Terme, Apulia), Italy
G. Cesario Calò and R. Tinelli 185
Experimental studies on the effects of pipeflow on throughflow partitioning
R.C. Sidle, H. Kitahara, T. Terajima and Y. Nakai 207
Tropical climate and glacier hydrology: a case study in Bolivia
P. Ribstein, E. Tiriau, B. Francou and R. Saravia 221
Soil evaporation monitoring: a possible synergism of microwave and infrared remote sensing
A. Chanzy, L. Bruckler and A. Perrier 235
Analysis of a model for contaminant transport in fractured media in the presence of colloids
A. Abdel-Salam and C.V. Chrysikopoulos 261
A stochastic approach to studying the influence of the spatial variability of soil hydraulic properties on surface fluxes, temperature and humidity
I. Braud, A.C. Dantas-Antonino and M. Vauclin 283
Identification and calibration of spatial correlation patterns of rainfall
B. Bacchi and N.T. Kottegoda 311
A review of baseflow recession analysis
L.M. Tallaksen 349

Discussions

The stochastic reservoir — Comment
V. Klemeš 371
The stochastic reservoir — Reply
E.H. Lloyd 375

Book Reviews
Groundwater — Drought, Pollution and Management, by C. Reeve and J. Watts (Editors), — J.S.G. McCulloch 377
The River Nile: Geology, Hydrology and Utilization, by R. Said — J.S.G. McCulloch 378
Hydrology and Wetland Conservation, by K. Gilman — M.J. Vepraskas 379

Corrigendum 381
